Health  
For All

# Fairer Health for All Fellowship

**Do you work in community or primary care settings and are passionate about improving health inequalities in Greater Manchester?**

Do you have an idea for how we can create fairer health? If so, join our Fairer Health For All Fellowship programme to develop your knowledge and skills in population health, inclusion and sustainability. You will have protected time for learning, supported by a mentor and peer network, so you can put your ideas into action. These fellowships are open to people from clinical and non-clinical backgrounds (including VCFSE).

## What can fellows expect to gain?

- Knowledge and skills in public health, relevant to your specialist area
- Access to communities of practice and learning networks
- Mentor support to implement a change process and convert theory into action
- Improved level of personal and professional leadership practice
- Increased resilience and ability to react to the challenges of rapidly changing contexts.
- Ability to triangulate themes from across health and social care, academia, and the voluntary sector
