Red Whale Webinars for The Greater Manchester Training Hub

Get the latest and most relevant updates for primary care with this series of Red Whale webinars, brought to you by Greater Manchester Training Hub.

Join us for our series of live online events or catch up on demand anytime for one month afterwards. Get bite-sized learning on key topics to support you in practice – with live interaction, or the flexibility to watch whenever it suits your schedule.

This fully funded offer for GPs, ACPs and Trainee ACPS working in Greater Manchester is only available as part of the Primary Care Integrated Development Programme (PC IDP). To get access to all these webinars and additional non-clinical learning on leadership, management, quality improvement and more you can express an interest in the PC IDP here : <https://forms.office.com/e/U6XJ8Re7aM> or scan the QR code

All live webinar events will run from 13:00 to 14:15

Thursday 3 October 2024

Menopause and HRT update

Perhaps the hottest topic of all!!! We will cover new BMS guidance on bleeding on HRT and progestogen dosing.

Wednesday 13 November 2025

Cardiovascular disease update

Let's look at all things lipids! When to QRISK? When to consider familial hypercholesterolemia and more.

Tuesday 14 January 2025

Urgent and on the day care update

We share changes in Sepsis and Meningococcal guidelines and what they mean for primary care.

Thursday 13 February 2025

Mental health update

This month we tackle the tricky topic of self-harm and suicide and how we can approach distress and risk.

Wednesday 12 March 2025

Respiratory update

What's new in asthma, acute cough and pneumonia? We reveal all.

Thursday 3 April 2025

Men's health update

We will look at how to approach testosterone deficiency, erectile dysfunction and prostatitis.

Wednesday 14 May 2025

Neurology update

Headaches, migraine, transient loss of consciousness and more – brush up on some common primary care neurology topics.

Thursday 12 June 2025

ENT update

I feel dizzy! My ears hurt! My ears are ringing – we discuss how to approach some common ear dilemmas.

Wednesday 2 July 2025

Interpreting primary care blood tests: the FBC

Time to process the blood results – we address common FBC dilemmas including NICE guidance on B12 deficiency.

Thursday 4 September 2025

Musculoskeletal medicine

We will look into all things back pain: how to spot and safety net for rarer causes including spinal cord compression and myeloma.
