

About Ava

I'm Ava Davies, I'm doing the Business Admin level 3 Apprenticeship and my role is to supply admin support to my managers and colleagues.

How did you hear about apprenticeships?

I learnt vaguely about apprenticeships in school but once I joined the GMTH I learned a lot more about what they entail.

Why did you want to become an apprentice?

I knew I didn't have my English GCSE and I wasn't too sure what job I wanted so I thought I would apply to something within an office and spreadsheets and see how I liked it.

Did you receive support with your apprenticeship? If so, who supported and how?

I have a lot of support with my apprenticeship. I have my line managers (Carla and Jon) who gave me protected time for my course work and my functional skills. I also have my tutors (Elle and Alan) who provide the lessons and are on call if I need any support.

Did you need any qualifications to be able to complete your apprenticeship?

I needed my English and maths but not having my English didn't mean I couldn't get an apprenticeship it means I can do it within my apprenticeship.

What did you like about working as an apprentice?

I like working as an apprentice because it's not repetitive, I'm always learning new things and you can become more and more qualified the higher up you go.

What advice would you give to anyone considering an apprenticeship?

I would say it's always a good idea to get an apprenticeship because there is always a qualification once you have completed it, which makes it easier to find jobs within your career path.
